WORK EXPERIENCE

Menswear Designer - March 2019 to September 2021

PYER MOSS

Lead designed for Pyer Moss menswear product as well as cross-functioning categories. Designed for special events such as Met Gala 19' - "Camp: Notes on Fashion", Collection 3 Runway "Sister", Collection 3 Men's RTW, Usher 20' Grammy Performance, Pyer Moss Haute Couture Collection 2021, Met Gala 21' - "In America: A Lexicon of Fashion". Collaborated with cross-functioning departments to ensure design cohesion throughout womenswear, accessories, and graphic design. Diligently used a detailed eye at e-commerce photoshoots to ensure product looks appropriate for website, content, and advertisements. Attended all fittings and supported progress of production for prototypes and sampling of Pyer Moss product. Input design details into techpacks and thoroughly check before handoff to Tech Design team.

Assistant Denim Designer - December 2017 to January 2019

RALPH LAUREN - POLO DENIM

Worked on Polo and Outlet designs for Denim Categories. Collaborated with cross-functional teams. Managed timely execution. Input design details into techpacks and thoroughly check before handoff to Tech Design team. Sought innovation through vintage research, market research, online research, and social networking. Supported design trim development within budget allocations.

FEATURES

Red Carpet - September 2021

MET GALA 21' - "IN AMERICA: A LEXICON OF FASHION"

Designed and illustrated suit for Met Gala Guest, Kerby Jean-Raymond.

Red Carpet - May 2019

MET GALA 19' - "CAMP: NOTES ON FASHION"

Designed, illustrated, and assisted production of Met Gala Guests such as Lala Anthony, Colin Kaepernick, Lena Waithe, and Kerby Jean-Raymond.

Publication - May 2017

VOGUE ITALIA - ISKO AL COPENHAGEN FASHION SUMMIT

Featured in Vogue Italia for "Revolutionary Combatant" design. This design was showcased at the 2017 Copenhagen Fashion Summit. With an emphasis on sustainability, the garment was constructed with sustainable denim selvedge fabric and finished with sustainable dry and wet processes.
